

Customized Blades for Medicine, Science and Industry

The cutting edge
in blade technology

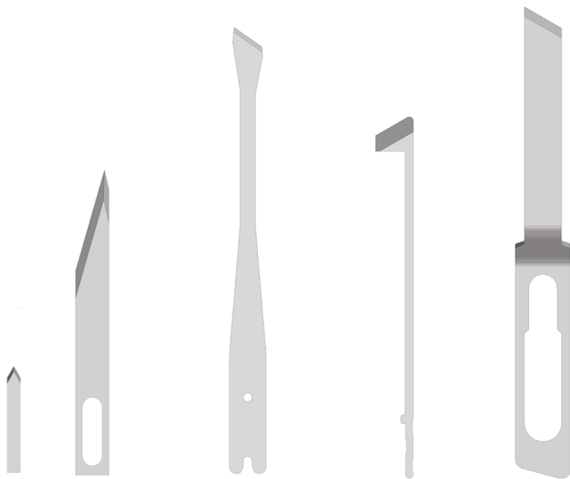

Gebauer manufactures **customized premium blades** for single and multiple use made of stainless-steel.

In our precision- and quality-oriented factory we produce small and medium quantities of blades with maximum requirements to:

- Sharpness
- Edge design
- Blade geometry
- Surface Finish

Examples of our precision blades

Endoscopic blades

Ophthalmologic blades

Microkeratome blades

Dermatome blade

Injector blade

Microtome blade

Band blade

With Gebauer as your partner you can expect more than just a sharp blade.

Starting with the idea to the finished serial production, including coating, packaging and sterilization, we are the right contact for your best blade solution.
